For Your Information: Your Horse

- It is best to use only acrylic paints.
- Do not use paint pens (even if they are acrylic-they will run in the clear coating process)
- Do not put any finish on top of the paint-varnish, polyurethane, etc.(the clear coating will not adhere)
- The clear coating is a premier, high gloss protective finish that will protect your horse
- If your horse is to have anything on it other than paint-jewels, hats, mirrors, etc. Please check with Hope Village or Beddingfields Perfection Collision Center to make sure it will be able to be protected
- Remember, your horse will be subject to the elements-wind, snow, rain etc.
- The standard concrete slab is a 3 feet by 6 feet rectangle with the corners cut off (8 sides)
- The concrete slab must be poured one week prior to installation
- The plaque that goes on the slab usually has the name of the horse, the artist's name, the sponsors name, and the month and year the horse is implemented.

Horse Installation & Placement

Clear Coating

- Done at Beddingfield's Perfection Collision (located @4712 24th Pl. Meridian, MS)
 - Call 601-581-5676 to make appointment
- Must be brought to Beddingfield's by artist or sponsor before installation

Plaque Information

- Includes name of horse, artist, sponsor, and month and year of implementation
- HVFC recommends ordering the plaque from Burton Awards or All Star Sports
 - 601-581-1557
- Pole mounting requires plaque and stake

Types of Mounting for Horses

1. Concrete Slab

- HVFC recommends spraying a template for horse positioning prior to pouring
- Measures 3' x 6'
- Needs a week for concrete to set up

2. Pole Mounting (no slab)

- HVFC recommends spraying a template for horse positioning prior to pouring
- Needs a week for concrete to set up

Once installation is complete HVFC recommends covering the horse with a tarp until sponsor is ready to reveal the horse to the public.
